
Merger Control in the EU and Turkey

We are happy to inform you that our book "Merger Control in the EU and Turkey: A Comparative Guide" by Fevzi Toksoy, Bahadır Balki and Hanna Stakheyeva has been published. The book focuses on comparing substantive, procedural and jurisdictional issues and draws parallels on their regulation in the European Union and Turkey. A notable feature is an in-depth analysis of applicable case law concerning each issue, with most of the Turkish decisions available in English for the first time. "Merger Control in the EU and Turkey" analyzes and demonstrates how (and to what extent) the rules and principles governing concentrations between undertakings in the EU competition law are reflected in a respective law in Turkey. The book is published by Wolters Kluwer.
