

COMPETITON COMPLIANCE

ACTECON

Expertise In Compliance

Competition compliance programs (“CCP”) and training sessions to enhance businesses’ awareness of competition law and limit their risk of violation. The CCP® developed by ACTECON is a process that implements an internal competition compliance policy and allows for the measurement and increase of competition law awareness among the employees and executives of a company. By doing so, the CCP® helps companies deal with the complex nature of competition rules with a business-oriented perspective.

An original and unique program, the CCP® is designed to analyse all of the legal and economic relations of the recipient company with third parties in terms of competition in order to minimize the risk of any sanctions that the company may face.

Programs that are customized with ACTECON's more than 15 years of experience

A Customized Program

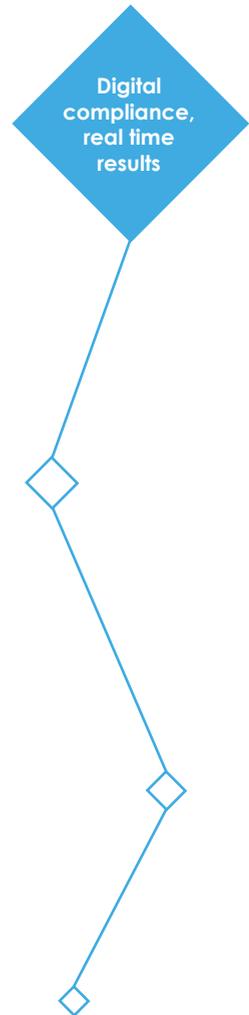

Our tailor-made training sessions can be arranged either as separate events or held simultaneously with annual team meetings. Session topics vary depending on the needs of the company. We instruct company employees and management on proper behaviour in case of unannounced inspections by the Turkish Competition Authority.

ACTECON has designed and implemented CCPs® for hundreds of companies, including multinationals active in different industries and jurisdictions.

Complizard® – Time Saving in Large-Scale Training Sessions

ACTECON's COMPLIZARD® is an online application designed to increase employee and management knowledge of competition law, assess their level of awareness, and keep them up to date. ACTECON considers COMPLIZARD® a key component of establishing a strong corporate competition compliance culture.

- COMPLIZARD® is a tool companies can use continuously to prevent or reduce risks of violating competition rules while conducting economic activities.
- COMPLIZARD® helps companies reach their business goals without violating competition rules.
- COMPLIZARD® explains the current competition rules of Turkey using real, practical examples instead of legal texts and theories.
